

# PETUNIA • CALI

Care Sheet · [www.LibertyFamilyFarms.com](http://www.LibertyFamilyFarms.com) · Ludlow, Massachusetts

## Garden Care

- Full sun
- Water regularly
- Add some slow-release fertilizer to the soil

More Sun+More Water  
=More Blooms!

## DIY Combos

Use our 4IN pots and 6-packs to design your own unique combination. Petunias are best used in the middle surrounded by Calibrachoa to spill over the edges. Mix solids with patterns of the same color scheme or combine complementary colors. Try solid red with blue/white speckled for a patriotic motif. Solid white pairs well with most colors and patterns. Hot pink and orange is trendy, and black (deep, dark purple) and white is classic elegance. Get creative—experiment!

## Petunia & Calibrachoa

Petunias and Calibrachoa are great décor plants for containers and hanging baskets for sun. They come in a wide range of beautiful colors, patterns, and sizes so you can choose the one that works for your particular project. Consider our 4IN pots and 6-packs the palette for designing your own combo. Sunbaskets are for when you need quick and easy color—just hang and enjoy!

### *Petunia in 4IN: Standing Up*

Our Petunias in 4IN have large blooms in fluorescent colors and unusual patterns, including stripes, star shapes, dots, and splotches. They mound up strikingly in baskets and containers to heighten the drama. Liberty Petunias are eye-catching on their own, or they can be used as the thriller element in your own unique designs. Another bonus: they are heat tolerant so they keep the brilliant color coming all summer long, even when other Petunias start to fade.

## So Many Different Patterns And Colors

---

Classic New England Solids

Star Pattern White On Hot Pink

Stripe Pattern: Dark Pink On Yellow

Bicolor: Deep Purple/White Margin

### *Calibrachoa in 4IN: Draping Over*

Calibrachoa flowers look like miniature Petunias, with hundreds of brightly colored blooms covering full, trailing plants. There are lots of fun colors available, and the blooms keep coming nonstop until frost. Calibrachoa is great for hanging baskets on its own and works nicely as a spiller in mixed combinations. It is self-cleaning, so the plant stays neat and tidy with no deadheading required. Hummingbirds love it!

### *Colorful Sunbaskets And Combinations*

For instant décor we have the colorful Petunia Sunbasket, full of stunning Liberty Petunias. Our Combination Sunbasket also features mounding Petunias for drama and height, with trailing Calibrachoa adding character and depth. Fluffy Lobelia provides soft white foamy fill, and Verbena is included to complement the Petunias and Calibrachoa.

### *Petunias In Six-Packs*

If you need a lot of Petunias of one color or type for a project, say you're filling an oversized planter, go with the Petunia six-pack. Available in solids and patterns, it was designed to make your life easier. One six-pack just happens to be the right amount to fill one medium hanging basket—how do you like that?
